

McGregor Museum Kimberley

Botany Department: An exciting new field guide to the natural history of the Kalahari and Surrounds.

This guide is aimed at the tourist and amateur naturalist interested in the wildlife of the Kalahari and its surrounds. The guide covers the area of the Northern Cape from the Orange River to the Botswana border in the north.

The guide includes:

- sections on the landscape, early travellers, mineral wealth, water sources and archaeology of the Northern Cape, north of the Orange River
- descriptions of the National Parks, Nature Reserves and conservation areas, and sites of special interest
- interesting information on the various vegetation types, plant species and the animal life that is found in each vegetation type
- an interesting range of colour photographs, colour paintings, black and white sketches, and colour maps illustrating the above
- checklists of the common birds, mammals, reptiles, amphibians and plants
- useful contact addresses and further reading for additional information

This guide is available at the extremely good price of R35.00.

Please enquire about postage costs and order forms from Ms. S. Erasmus
