Museum Lessons

Museum Tours

Museum Lessons

Hands-on, object-orientated lessons are presented to small groups (normally a single class) in the museum classroom or galleries. Museum-related topics are selected to complement the new outcomes based school curriculum and to promote better learning. Some of the more popular topics are:

- Ecology
- Animals in the EnviroZone
- Food Chains
- Insects
- "Animal Clothes" (fur, spines, feathers, scales, shells etc.)
- Early Inhabitants of the Northern Cape
- Human evolution and stone age tools
- Khoisan and Rock Art
- Discovery of Diamonds
- Siege of Kimberley.

Museum Tours

Guided tours of [all the museum complexes](#) are also offered. The Education Officer is a registered Provincial Tour Guide and from time to time young volunteers are trained as part-time museum guides to assist her with large groups.
